1. According to factory order books, Krupp-Gruson, Magdeburg has been directed by the Soviets to produce the following by 31 October 1947:

2,400 tons of heavy naval equipment  
800 " " housings for naval instruments  
1,200 " " bases for diesel engines  
500 " " naval turbines

25X1X6

2. In addition, factory order books reveal that the Dessauer Messinstrumente-und Metallwarentrieb, formerly the Allgemeine Gaswerk-Aktiengesellschaft, the parent corporation of Askania, has been ordered to turn out the following by the same date:

800 gyro-compasses  
400 airplane engines  
250 instruments for aeronautic measuring

This factory is to be turned over to Land administration after completion of the above production.
